# **Project Croatia**

**Collection of Information** 

Dr. Agata Godulla, Neven Tikvica, Dr. Tom Cvrlje

#### Objectives

#### Objective

- 1. Learn more about Airbus
- 2. Learn more about Croatian Scientific and Business Community
- 3. Learn more about the Croatian Project
- 4. Agree and Harmonise the Mindmap and SWOT
- 5. Elaborate possible Project Ideas
- 6. Elaborate further roadmap

#### **Closure** Criteria

- Presentation of Organisation Presentation of Participants
- Presentation of Entities Presentation of Participants
- Ideas on Croatian Project available
- Mindmap + SWOTavailable
- Project Ideas available
- Roadmap available

## Airbus

#### Organisation

#### **AIRBUS** GROUP

## Roadmaps

#### **Innovation Centres**

**Innovation Centre 1** Materials, Structures + **Manufacturing Technologies** 

**Innovation Centre 2** Automatic Flight and Communication

Examples for Field of Interest Metallic and Composite Technologies Composite Manufacturing Sensors in Structures **Energy Storage Materials** 

**Examples for Field of Interest** Remote Sensing

Surface Technologies

Examples for Field of Interest **Electrical Power Machines Electric Technologies Electronics for Space Applications** Electromagnetics Fuel Cells Aeromechanics and Acoustics

**Examples for Field of Interest** Advanced Numerical Methods **Operational Intelligence** Virtual Product Engineering Predictive Maintenance

**Examples for Field of Interest** UAV Systems

4

**Innovation Centre 3** Energy, Propulsion and Aerodynamics

**Innovation Centre 4** Data Driven Technologies

**Innovation Centre 5** Concepts and Industrial Design

# **Stakeholder Analysis**

Mindmap

#### Government and Administration (A-1)

<ul> <li>Strengths</li> <li>Willingness to create a sustainable footprint with economic growth and recognition within the scientific and high-technique community</li> <li>Power and instruments to make ithappen</li> </ul>	<ul> <li>Weaknesses</li> <li>No efficient combination of internal interests with opportunities and/or capabilities</li> <li>Multi-dimensional organisations</li> <li>Clear direction missing</li> <li>Ineffective communication across all the stakeholders</li> </ul>
<ul> <li>Opportunities</li> <li>As a new member of the EC, Croatia will get access to EC funding for research and business</li> <li>The notion to centralise and combine activities of border security, emergency under the roof of homeland security</li> </ul>	<b>Threats</b> <ul> <li>Increased illegal immigration movement</li> <li>Natural disasters, e.g. flooding, fire</li> </ul>

### Scientific Community (A-2)

<ul> <li>Strengths</li> <li>Willingness to collaborate with international companies and institutions</li> <li>Proven capabilities and expertise in numerous national and international reputational projects</li> <li>Robust international scientific network</li> </ul>	<ul> <li>Weaknesses</li> <li>No robust network with political and military institutions</li> <li>Unsecure funding capabilities</li> </ul>
<ul> <li>Opportunities</li> <li>As a new member of the EC, Croatia will get access to EC funding for research and business</li> <li>The notion to improve working with international institutions and high-tech business leaders</li> <li>The notion to create a R&amp;Tcentre of excellence</li> </ul>	Threats • Low support of governmental agencies

### Military and Homeland Security (A-3)

<ul> <li>Strengths</li> <li>Willingness to establish a Homeland Security Entity</li> <li>Military Sites with proven capabilities may be easily exploited by industry and scientific organisations</li> </ul>	<ul> <li>Weaknesses</li> <li>Russian technologies in operation with low maintenance capabilities, depending on Russian companies</li> <li>Unsecure funding capabilities</li> </ul>
<ul> <li>Opportunities</li> <li>As a member of the NATO, Croatia will get access NATO initiatives and standards</li> <li>The notion to improve collaboration with Western counterparts</li> </ul>	Threats • No close cooperation with R&D projects in-country

# SWOT

# Enterprises and Companies (A-4)

<ul> <li>Strengths</li> <li>Willingness to establish partnerships with international Western companies</li> <li>Willingness to enter Western market with competitive products and/or services</li> </ul>	<ul> <li>Weaknesses</li> <li>Low support of governmental agencies</li> <li>No capacity to cover an international mass market needs</li> </ul>
<ul> <li>Opportunities</li> <li>The notion to improve collaboration with Western counterparts</li> <li>The notion to create a R&amp;D centre of excellence</li> </ul>	Threats •

#### Example

#### Homeland Security – needs!

#### Homeland Security – interoperability!
